第五屆亞洲兒童感染症醫學大會
The 5th Asian Congress of Pediatric Infectious Diseases
September 23-26, 2010, Taipei, Taiwan

Call for Sponsorship

Dear Colleagues and friends,

The 5th Asian Congress of Pediatric Infectious Diseases (ACPID), organized by The Taiwan Pediatric Association and The Infectious Diseases Society of Taiwan, will be held in Taipei, Taiwan, September 23-26, 2010. A Scientific Program Committee has been established to compose a high-quality and well-balanced program. In addition to the plenary lectures and the keynote speech, there will be more than 20 symposium sessions, several workshops, and oral and poster presentations. We are expecting active participation of over 2,000 delegates from Asian countries and all parts of the world.

At this scientific meeting, we aim to share and exchange with experts from all over the world the experience and knowledge of developing and applying better strategies for the prevention and the treatment of infectious diseases in children. Support and patronage from related organizations and industries have been the backbone of advanced research in this scientific field. Your esteemed company has been long known for your forward-looking marketing and sponsorship practices. The 5th ACPID offers you an excellent opportunity to network with your target audiences, to maximize publicity for your products and services, and to re-confirm your business strategies.

Enclosed please find a list of sponsorship options for your kind consideration. Should you have any enquires, please feel free to contact the Secretariat. We are looking forward to your favorable reply at the earliest.

Sincerely yours,

Chin-Yun Lee

Scientific Program

Preliminary topics for keynote and plenary lectures:

1. Use of fluoroquinolones in pediatric patients.
2. Pneumococcal vaccine: How many valents are adequate?
3. Pediatric AIDS in Asia.
4. Pediatric TB in Asia, including the role of quinolones in treatment.
5. H1N1 influenza virus vaccine.
6. Genetic susceptibility to infectious diseases.
7. The impact of influenza vaccine in children.
8. PK/PD of antimicrobials in children.
9. Hemophagocytic lymphohistiocytosis in children.
10. Paper review update: two sections including infectious disease and clinical microbiology.

Preliminary symposium titles and topics:

1. Infection control in pediatrics: hand hygiene, "Is eradication of MRSA in endemic ICU possible?"
2. Emerging and re-emerging infectious diseases in Asia: avian influenza, EV 71, coronaviruses, and others.
3. Antibiotic-resistant bacteria in community-acquired infections: MRSA, PRSP, etc.
4. Enteric bacterial infections (*Salmonella*, *Shigella*, *E. coli*, etc.) in Asia: epidemiology, pathogenesis, treatment, and prevention.
5. Enteric viral infections (rotavirus, norovirus, etc.) in Asia: epidemiology, diagnosis, treatment, and prevention.
6. Eradication of poliovirus in Asia: poliomyelitis in India, imported poliovirus in Indonesia, vaccine-derived poliovirus in Asia.
7. Invasive pneumococcal diseases in Asia: epidemiology, necrotizing pneumonia/empyema, vaccination.
8. The link between infectious diseases and atopic diseases: RSV and asthma, rhinovirus and asthma, *S. aureus* and atopic dermatitis, hygiene hypothesis.
9. Dengue fever in Asia: epidemiology, treatment, and development of vaccine.
10. TB: disease burden in Asia, diagnosis dilemma, new vaccine development.
11. Newly developed vaccines: rotavirus vaccine, pneumococcal vaccine, meningococcal vaccine, human papillomavirus vaccine.
12. Vaccine preventable diseases in Asia: measles, varicella, etc.
13. Vaccine safety.
14. Probiotics.
15. Neonatal infections.

(The scientific committee is still working on the program. The above mentioned topics are not finalized. Suggestions are highly appreciated.)
